Progress at Poplar Springs

Ringgold Breaks Ground on New Water Well

In the coming weeks, crews will break ground on the Poplar Springs Water Well located at the corner of Poplar Springs Rd and North Crestview Dr. The well is part of a larger project that includes installing a SCADA system and rehabbing Ringgold's water distribution system. With a million-gallon-per-day capacity, the well doubles the city's current water capacity, provides a sustainable source of drinking water, and is less likely to be affected by contaminants. Funding for this initiative includes a \$2.6 million EPA Grant and a \$3.7 million GEFA loan. The Poplar Springs Well Project secures water for future generations of our community, and we invite everyone to attend the upcoming Groundbreaking Ceremony. Date announced soon.
